Specific Ingredient Focus

Why Watermelon Seed Oil?

CITRILLUS LANATUS (Watermelon) SEED OIL offers intense hydration, enhances skin elasticity, and aids in unclogging pores, making it ideal for those with acne-prone and sensitive skin.

Its rich antioxidant properties shield against environmental stressors and encourage a youthful look.

Why Meadowfoam Oil?

LIMNANTHES ALBA (Meadowfoam) seed oil offers numerous benefits for facial skin, including moisturizing, soothing, and balancing sebum production. It's a light, non-greasy oil that readily penetrates the skin, making it suitable for all skin types, including sensitive and acne-prone skin.

It moisturises and hydrates skin, balances sebum production and softens facial skin

Why Rosehip Seed Oil?

ROSA RUBIGINOSA (Rosehip) seed oil offers numerous benefits for the face, including anti-aging, moisturizing, and scar reduction. It's rich in essential fatty acids like omega-3 and omega-6, as well as vitamins A and C, which contribute to skin regeneration, elasticity, and a radiant complexion. It has inherent anti-aging, brightening, exfoliation, anti-inflammatory and scar reduction, properties.

Why CBD?

CBD (Cannabidiol) is a natural compound found in Cannabis plants. CBD is not impairing, meaning it does not cause a high. It is claimed that CBD improves blood flow.

CBD may have an anti-inflammatory effect on sebocytes, the skin cells that produce sebum. It helps to reduce inflammation. As an anti-inflammatory, CBD may be able to help reduce swelling, pain, and redness from existing breakouts, or irritation from skin conditions like eczema and psoriasis. CBD may help reduce various types of acne thanks to its ability to adjust how the body creates sebum.

CBD is claimed to help with dry skin and other skin conditions, making it beneficial for your skin. In an article published on the USA Government's website National Library of Medicine dated 30 June 2021, it is stated that "preclinical evidence suggests topical application of CBD may be efficacious for some skin disorders, and inflammatory diseases". suggests topical application of CBD may be efficacious for some skin disorders, and inflammatory diseases".
